

Corodata's Shredding Equipment

Corodata's document destruction service is designed to help clients maintain the security of the information they want to destroy. We understand the need for security and compliancy, which is why we have a variety of different bins and consoles designed to fit our clients' individual needs. All our equipment maintains the security of documents that go inside them for destruction, from the moment they enter the container to the minute they are destroyed. Our equipment comes with tamper resistant locks and document entry slots.

9 Gallon Executive Under Desk Console

Compact and secure, this 9-gallon console is designed to fit neatly beneath a desk or in a cubicle space. Ideal for individual users with light shredding needs, it offers a locked solution for safely storing sensitive documents until pickup.

Capacity: 30 lbs. 13.25"H x 12"W x 16.75"D

21 Gallon Executive Console

Perfect for shared cubicle areas or small departments, this 21-gallon console provides moderate capacity in a sleek, furniture-like design. It fits easily against a wall or beside desks, making it a convenient, secure option for everyday document disposal.

Capacity: 50 lbs. 24"H x 21"W x 15.5"D

32 Gallon Executive Console

Ideal for larger workgroups or high-traffic office areas, the 32-gallon console offers increased capacity without compromising on space. Positioned near desk clusters or common areas, it provides locked document security and easy service access.

Capacity: 75 lbs. 36"H x 21.5"W x 16"D

64 Gallon Rolling, Locking Shred Bins

Engineered for large offices or centralized shredding stations, this 64-gallon bin features a durable build and rolling wheels for easy movement. Best placed in print rooms or near multiple cubicle clusters, it securely stores large volumes of sensitive paper waste.

Capacity: 150 lbs. 42"H x 23"W x 29"D
